

# Daily Report

Yuxin Ma

06.28.2013

## Reading

I asked Prof. Tung for some details on the idea of model and prediction combination mentioned yesterday, however there is currently no research plan for them. After discussion with Prof. Tung, he recommended [1] to get a better understanding of what he said about their system in yesterday's dinner meeting.

## Research

Research proposal has been updated including new case study design. Tomorrow design of the new pipeline is about to begin.
